

INTERNATIONAL FINANCIAL REPORTING
FOR NON PROFIT ORGANISATIONS

International Non-profit Accounting Guidance (INPAG) Exposure Draft 3

Response template

Please use this form to record your responses to the Specific Matters for Comment relating to [INPAG Exposure Draft 3](#)

Comments are most helpful if they:

- a) Address the question asked;
- b) Contain a clear explanation to support the response provided, whether this is agreeing or otherwise with any proposals made;
- c) Propose alternatives for consideration, where responses are not in agreement with the proposal made;
- d) Specify the INPAG paragraphs to which any comments relate; and
- e) Identify any wording in the proposals that might not be clear because of how they translate.

The text boxes will expand as required. There is no size limit. There are 11 question areas, according to the various sections in INPAG. You do not need to answer all questions and can choose to answer as many or as few as you wish. You may comment on any aspect of Exposure Draft, not just the specific matters identified. General comments should be added at the end of this document.

Responses must be received by **16 September 2024 and must be in English.**

Responses can be submitted to ifr4npo@cipfa.org or through the website at www.ifr4npo.org/have-your-say

Respondent information:

First name:	Tshewang	Country: Bhutan

Specific Matters for Comment

Question 1: Fund accounting

INPAG Section 36 sets out the characteristics of a fund for the purposes of INPAG and whether a fund is presented in the financial statements as being with or without restrictions. A fund is presented as with restrictions where the use of resources is limited to a specific purpose or activity as a consequence of externally imposed legal or equivalent arrangements or where a fund is established for a fundraising campaign with an externally communicated commitment on the specific use for the funds. The guidance requires that the income, expenses, assets and liabilities associated with a fund are recorded. New disclosures are required for fund balances and movements in the year. INPAG Section 5 has been amended to remove the requirement to disclose funds with and without restrictions on the face of the Statement of Income and Expenses.

1 Fund accounting	References	Response
a) Do you agree that the ED1 requirement to present funds with restrictions and funds without restrictions on the face of the Statement of Income and Expenses should be removed? If not, why not?	G5.3, AG5.4	I agree with ED1. It would be helpful to present a summary on the face of the statement that highlights the organization's fund composition to meet its objectives. A higher amount of unrestricted funds provides greater flexibility for the organization to achieve its goals. Non-profits/NGOs should focus on increasing unrestricted funds while reducing the proportion of restricted funds.
b) Do you agree that the guidance in Section 36 will ensure that material funds can be identified? If not, what changes would you propose? Is there a risk that funds are not identified?	G36.3–G36.4, Figure AG36.1	I agree that material funds can be identified. However, it is essential to define what constitutes materiality in this context. Clearly defining materiality will ensure that the identification and reporting of material funds are consistent and meaningful.
c) Do you agree that income, expenses, assets and liabilities are tracked for each fund? What are the costs and benefits? What, if anything, would you change and why? What are the practical considerations?	G36.5, G36.7, AG36.3	I agree that tracking income, expenses, assets, and liabilities for each fund is essential. This approach will facilitate accurate reporting, simplify the auditing process, and help donors recognize the impact of their contributions.
d) Do you agree with the two criteria for a fund to be a fund with restrictions? If not, what would you change and why?	G36.9	I do agree.
e) In order to provide transparency about the finances of an individual fund, do you agree that all the expenses should	G36.11–G36.12	To ensure transparency, it is important to show detailed information about restricted funds. However, when reporting to donors, we should charge expenses to unrestricted funds and present a clear, consolidated report. This

1 Fund accounting	References	Response
be charged against a fund with restrictions even if there are currently insufficient resources to cover these, or specific costs are not eligible under a grant arrangement? If not, what alternative would you propose and why?		approach will help strengthen our relationship with donors by providing a transparent and simplified overview of fund utilization.
f) Do you agree with the NPO funds disclosures requirements? If not, what would you change and why?	G36.21–G36.23	I do agree with this requirement.
g) Do the Illustrative examples demonstrate the key concepts in fund accounting? If not, what would you change and why?	Implementation Guidance – Section 36	Yes, the illustrative examples effectively demonstrate the key concepts.

Question 2: Presentation of expenses, fundraising costs and related disclosures

INPAG Section 24 Part II provides guidance on the presentation of expenses. It permits an expense analysis by nature, by function, or a mixture of the two. It includes a rebuttable presumption that an analysis by nature is used unless another analysis provides information that is more relevant and reliable. Guidance is provided on the allocation and aggregation of costs where a functional or mixed presentation is used, which will be useful for calculating support costs. INPAG Section 24 Part III provides a definition of fundraising activities and identifies three categories to be disclosed: activities to generate donations, gifts and similar transfers; commercial and trading activities; and investment management. There is a pragmatic exception where costs need to be split between fundraising and other activities.

INPAG Section 33 on related party disclosures draws attention to the possibility that an NPO's financial position and/or its surplus or deficit have been affected by the existence of related parties. Disclosure is required of personnel compensation made to governing body members as well as key management personnel. INPAG Section 28 has been updated to include the disclosure of short term employee related benefits.

2 Presentation of expenses	References	Response
a) Do you agree that there is a rebuttable presumption that a by nature classification of expenses is used unless this doesn't provide the most relevant	G24.43–G24.47, AG24.45–AG24.47	

2 Presentation of expenses	References	Response
and reliable information to the users of the financial statements? If not, why not?		
b) Do you agree that the rationale for using a classification of expenses other than by nature should be disclosed? If not, why not?	G24.44	I agree with the rationale for classifying expenses. However, I do not believe it is necessary to disclose every detail beyond the nature of expenses. It is more appropriate for the organization to determine what is useful and relevant for disclosure. Over-disclosure to donors could potentially impact donor relations and may not align with statutory requirements.
c) Do you agree that where a functional or mixed presentation of expenses is used, a narrative description of the types of expenses incurred on each function line item is sufficient and that a requirement for these to be quantified is not necessary? If not, why not?	G24.46, AG24.48	I do agree with the statement.
d) Do you agree with the expense disclosure requirements? If not, what would you change and why?	G24.50–G24.57, G33.7–G33.11, G28.38	I agree with the statement. However, the term "bonus" should not be used in this guidance. Bonuses are typically associated with profit-driven organizations and are based on performance and profitability. Since NPOs/NGOs do not operate with profit as their primary goal, "bonus" should be replaced with "allowance" (such as "performance allowance" or similar) to better reflect the nature of compensation in non-profit contexts.
e) Do you agree with the description of direct costs, shared costs and support costs and that these allow the full cost of an activity to be identified? If not, why not?	G24.48–G24.49	I agree with the descriptions and the statements in G24.48 and G24.49. They are clearly articulated.
f) Do you agree that commercial and trading activities that are for the purposes of fundraising and investment management costs associated with a fund whose purpose is to generate future returns are included as fundraising activities? If not, why not?	G24.64–G24.66	I partly agree with this point. Costs incurred from selling donated items should not be classified as investment in fundraising; instead, the net profit from these sales should be treated as donation received. Conversely, if assets are procured for running a social enterprise, such expenses should be considered an investment.

2 Presentation of expenses	References	Response
g) Do you agree with the pragmatic exception that fundraising costs do not need to be split from other costs where the cost of doing so would exceed the information benefit to stakeholders? If not, what would you change and why?	G24.72	Costs incurred for different activities should be allocated proportionately, and costs related to common purposes that contribute to all activities need to be apportioned accordingly. If these allocations are handled at the transaction level, it may not be necessary to disclose them separately in the financial statements, as this approach should address any potential issues.
h) Do you agree that the costs for each of the three categories of fundraising activity should be separately disclosed and presented gross? If not, what should be disclosed and why?	G24.74	The statement in G24.74 may be useful for management and auditors. However, this level of detail may not be necessary for stockholders, who might not require this information to be presented in separate categories.
i) Do you agree that grants or donations made in arm's-length transactions with governing body members and any services they receive on the same terms as other eligible service recipients need not be disclosed as a related party transaction? If not, why not?	G33.18 a)– G33.18 b)	I agree on this statement.

Question 3: Supplementary information and INPAG Practice Guide 1 – Supplementary statements

INPAG Section 37 requires additional information to be disclosed when an NPO produces one or more supplementary statements using INPAG Practice Guide 1. NPOs may choose to prepare a single note to meet the requirements or disclose only the additional information. INPAG Practice Guide 1 – Supplementary Statements enables the presentation of key financial information about a specified activity, project or grant, in a prescribed statement format, which can be included as an Annex to the financial statements. The Practice Guide provides templates for different variants of reporting that includes comparison to budget, multiple grants, multiple time periods and different currencies.

3 INPAG Practice Guide 1	References	Response
a) Do you agree that the requirements of Section 37 do not have to be met unless Supplementary statements are prepared in accordance with INPAG Practice Guide	G37.1–G37.2	I agree

3 INPAG Practice Guide 1	References	Response
1- Supplementary statements? If not, why not?		
b) Do you agree that a whole of NPO supplementary statement need not be presented if the additional information is already in the financial statements and/or notes? If not, why not?	G37.3, G37.10- G37.12	I agree
c) Do you agree with the format of the Supplementary statement? If not, what would you change and why?	SS.5	
d) Do you agree with the options for the disclosure of capital and inventory related costs? If not, what would you change and why?	SS.18-SS.21	
e) Do you agree that the Supplementary statements are not part of the general purpose financial report but can be published as an annex? If not, why not?	SS.25-SS.26	

Question 4: Illustrative financial statements

INPAG Implementation Guidance Annex A includes Illustrative financial statements. The templates have been populated with data to cover the most common NPO transactions. The illustrative financial statements focus on new INPAG requirements.

4 Illustrative financial statements	References	Response
a) Do you agree that the illustrative financial statements cover the transactions that are prevalent for NPOs? If not, which prevalent transactions are missing and why do these need to be covered?	Illustrative financial statements	I do agree

Question 5: Equity

INPAG Section 2 provides the concepts and principles on which INPAG is based. Amendments are proposed to equity and net assets as a result of feedback. Net assets is a new element defined as the residual amount of an NPO's assets and liabilities available to achieve its objectives. The term equity claim is introduced to describe equity type instruments, which is a subset of net assets. INPAG Section 22 has the principles for classifying financial instruments as either liabilities or equity claims. As INPAG does not use the term equity, consequential amendments reflect the expected nature of NPO equity claims.

5 Equity	References	Response
a) Do you agree with the revised description of net assets and its inclusion as an element? If not, what would you change and why?	G2.73	Using "net assets" is more appropriate than referring to it as "equity" in the context of non-profit organizations.
b) Do you agree with the use of the term equity claims in Sections 2 and 22 and that equity claims are a subset of net assets? If not, what would you change and why?	G2.74, AG2.6, AG2.7, Section 22	The term "equity" should not be used in the context of non-profit organizations. Instead, we should refer to it as "net asset claim."
c) Do you agree that the paragraphs relating to the sale of options, rights and warrants, extinguishing financial liabilities with equity claim instruments and treasury shares are removed from and that the paragraphs relating to capitalisation or bonus issues of shares and share splits and convertible debt or similar compound financial instruments are retained? If not, why not?	G22.12-G22.15	

Question 6: Transition to INPAG

INPAG Section 38 describes the requirements for recognising and measuring assets and liabilities to create a Statement of Financial Position when INPAG is adopted for the first time. Accumulated funds that contain historic surpluses and deficits must be split between funds with restrictions and

funds without restrictions. Compliance with just the financial statements can be asserted ahead of full compliance. The narrative reporting requirements must be completed within a two-year period to be able to continue to express compliance with INPAG.

6 Transition to INPAG	References	Response
a) Do you agree with the pragmatic approaches proposed for the first time adoption of INPAG? If not, what are the practical challenges that are likely to be experienced?	G38.11–G38.12	
b) Do you agree that compliance with INPAG can be expressed in relation to the financial statements only for a two-year transitional period? If not, why not?	G38.5–G38.6	

Question 7: Application of fair value

INPAG Section 12 describes how to measure assets and liabilities using fair value. The use of fair value to determine the deemed cost of donated assets is reflected in INPAG Section 16, for investments in land or buildings that are held to earn rentals or for their capital appreciation, INPAG Section 17, for property, plant and equipment, including capitalisation and depreciation and INPAG Section 18, for identifiable non-monetary assets that does not have a physical substance (eg licenses). The cost model in Section 17 applies to all tangible assets that are held for use in the activities of the NPO and are expected to be used during more than one period as well as to property held to deliver an NPO’s missional objectives, eg social housing. There are no exceptions for assets that are funded by grants or donations.

7 Application of fair value	References	Responses
a) Is the Section 12 application guidance that sets out how the fair value hierarchy applies to NPO assets and liabilities and the illustrative examples of fair valuing donations in-kind useful? If not, how could it be improved?	AG12.1–AG12.11	I do agree
b) Do you agree with the additional guidance provided for donated: i) investment property (Section 16)?	G16.7 G17.10 G18.14	I do Agree

7 Application of fair value	References	Responses
ii) property, plant and equipment (Section 17)? iii) intangible assets (Section 18)? If not, why not?		

Question 8: Impairments

INPAG Section 27 requires that the carrying amount of an asset is reduced to the recoverable amount, where its carrying amount is higher than its recoverable amount. The new measurement base for inventories held for distribution at no or nominal cost has been added. The Section refers to an NPO's 'operating units' to encompass assets that are held for missional purposes rather than purely cash-generation.

8 Impairments	References	Responses
a) Do you agree that inventory held for distribution is measured for impairment using cost adjusted for any loss of service potential? If not, what would you change and why?	G27.2-G27.4	I do agree
b) Do you agree that the term operating unit better reflects the nature of an NPO's operations and with its proposed definition? If not, what alternative term would you use and why?	G27.8	I do agree
c) Do you agree that impairments to assets that form an operating unit can take account of other economic benefits and service potential? If not, what would you change and why?	G27.15	I do agree

Question 9: Combinations of entities

INPAG Section 19 applies to the combining of entities, (including NPOs) that meet the definition of a business. The term business has been broadened to include the types of activities carried out by NPOs. It provides guidance on the recognition and measurement of the assets and liabilities acquired in a combination and includes a simplification where there is a combination of two NPOs that both have positive net assets.

9 Combinations of entities	References	Responses
a) Do you agree that the term 'business' can be applied by NPOs when taken alongside the amendments proposed, (including the expansion of examples of control)? If not, why not? What practical issues are experienced?	G19.4, G19.5, AG19.1–AG19.2	I suggest using "transaction" instead of "business" in the context of non-profit organizations, as "business" typically refers to profit-making entities.
b) Do you agree with the proposed exemption for two NPOs that have net assets and that it should not apply where one NPO has net liabilities? If not, describe the practical and accounting issues that arise?	G19.24	I agree with the proposed exemption, but it's crucial to ensure that the NPO does not have liabilities exceeding its assets and that there is no deficit in net assets during the merger. Typically, non-profit organizations may receive interest-free loans from financial institutions to maintain cash flow for donor-committed activities and investments. Proper management of these financial aspects is essential to ensure a smooth and successful merger process.

Question 10: Other topics in Exposure Draft 3

INPAG Section 14 and INPAG Section 15 provide guidance on accounting for associates and joint arrangements in consolidated and separate financial statements respectively. INPAG Section 20 covers the accounting for all leases and INPAG Section 34 provides guidance on three types of specialised activities: agriculture, extractive activities and service concessions. None of these Sections have been amended other than for terminology changes.

10 Other topics in ED3	References	Response
a) Do you agree that no further alignment changes are needed to: i) Section 14 Investment in associates? ii) Section 15 Joint arrangements? iii) Section 20 Leases? If not, why not?	Section 14 Section 15 Section 20	
b) Is any of the guidance in Section 34 needed by NPOs? If yes, which elements of the section are needed and why?	Section 34	

Question 11: IFRS for SMEs Addendum

INPAG Section 7 and INPAG Section 30 (published in ED1 and ED2 respectively) have been updated as a consequence of additional text proposed in the Addendum to the draft Third edition of the IFRS for SMEs Accounting Standard issued by the International Accounting Standards Board on 28 March 2024. There is additional text on supplier finance arrangements in Section 7 and lack of exchangeability in Section 30.

11 Addendum	References	Responses
a) Do you agree that the guidance for supplier finance arrangements is useful and relevant to NPOs? If not, what would you change and why?	G7.20A– G7.20B,	
b) Do you agree that the guidance on lack of exchangeability is useful and relevant to NPOs? If not, what would you change and why?	G30.5A, G30- 31–32, AG30.26– AG30.43	

General Feedback

Please share any other comments that you wish to raise on Exposure Draft 3. When providing additional feedback please reference the paragraph numbers, where possible and provide a short explanation to support your comments.
