**International Non-profit Accounting Guidance (INPAG)
Exposure Draft 3**

Response template

Please use this form to record your responses to the Specific Matters for Comment relating to INPAG Exposure Draft 3

Comments are most helpful if they:

- a) Address the question asked;
- b) Contain a clear explanation to support the response provided, whether this is agreeing or otherwise with any proposals made;
- c) Propose alternatives for consideration, where responses are not in agreement with the proposal made;
- d) Specify the INPAG paragraphs to which any comments relate; and
- e) Identify any wording in the proposals that might not be clear because of how they translate.

The text boxes will expand as required. There is no size limit. There are 11 question areas, according to the various sections in INPAG. You do not need to answer all questions and can choose to answer as many or as few as you wish. You may comment on any aspect of Exposure Draft, not just the specific matters identified. General comments should be added at the end of this document.

Responses must be received by **16 September 2024 and must be in English.**

Responses can be submitted to if4nppo@cipfa.org or through the website at www.if4npo.org/have-your-say

Specific Matters for Comment

Question 1: Fund accounting

INPAG Section 36 sets out the characteristics of a fund for the purposes of INPAG and whether a fund is presented in the financial statements as being with or without restrictions. A fund is presented as with restrictions where the use of resources is limited to a specific purpose or activity as a consequence of externally imposed legal or equivalent arrangements or where a fund is established for a fundraising campaign with an externally communicated commitment on the specific use for the funds. The guidance requires that the income, expenses, assets and liabilities associated with a fund are recorded. New disclosures are required for fund balances and movements in the year. INPAG Section 5 has been amended to remove the requirement to disclose funds with and without restrictions on the face of the Statement of Income and Expenses.

1 Fund accounting	References	Response
a) Do you agree that the ED1 requirement to present funds with restrictions and funds without restrictions on the face of the Statement of Income and Expenses should be removed? If not, why not?	G5.3, AG5.4	Yes, because this will be well covered in the notes by G36.22(b).
b) Do you agree that the guidance in Section 36 will ensure that material funds can be identified? If not, what changes would you propose? Is there a risk that funds are not identified?	G36.3-G36.4, Figure AG36.1	Yes.
c) Do you agree that income, expenses, assets and liabilities are tracked for each fund? What are the costs and benefits? What, if anything, would you change and why? What are the practical considerations?	G36.5, G36.7, AG36.3	No to each fund. I am of the opinion we consider tracking only material funds and thus could consider saying ".... income, expenses, assets and liabilities shall be tracked for each material fund. A fund is material if it accounts for 10% or more of an NPOs prior fiscal year's total income. All other restricted funds shall be aggregated under on column "other restricted funds"". This will balance the resources in put into tracking because some funds granted are really small. I have seen grants with restrictions as small as USD10,000! I base 10% on the fact that the grantors of the funds already receive some form of specific funds accountability reports from the NPOs. This will also make the

1 Fund accounting	References	Response
d) Do you agree with the two criteria for a fund to be a fund with restrictions? If not, what would you change and why?	G36.9	spreadsheet analysis of a reasonable size to include on the A4 sized paging on which most general purpose financial statements are designed. Yes.
e) In order to provide transparency about the finances of an individual fund, do you agree that all the expenses should be charged against a fund with restrictions even if there are currently insufficient resources to cover these, or specific costs are not eligible under a grant arrangement? If not, what alternative would you propose and why?	G36.11–G36.12	No. This will instead discourage transparency and defeat the reason for restriction. I am of the opinion that only eligible cost under a grant arrangement should be charged to the grant and only to the extent the grant or restricted fund balance can hold except for temporary negatives i.e. avoid creating permanent negative balances on a restricted fund. All non-qualifying costs and excess of qualifying costs above available restricted fund balance at closing of the fund life should go to unrestricted funds. This will ensure that an NPO's Governing Body (GB) and Management will take responsibility for proper management of funds.
f) Do you agree with the NPO funds disclosures requirements? If not, what would you change and why?	G36.21–G36.23	Yes subject to my comments at c) above.
g) Do the illustrative examples demonstrate the key concepts in fund accounting? If not, what would you change and why?	Implementation Guidance – Section 36	Yes.

Question 2: Presentation of expenses, fundraising costs and related disclosures

INPAG Section 24 Part II provides guidance on the presentation of expenses. It permits an expense analysis by nature, by function, or a mixture of the two. It includes a rebuttable presumption that an analysis by nature is used unless another analysis provides information that is more relevant and reliable. Guidance is provided on the allocation and aggregation of costs where a functional or mixed presentation is used, which will be useful for calculating support costs. INPAG Section 24 Part III provides a definition of fundraising activities and identifies three categories to be disclosed: activities to generate donations; gifts and similar transfers; commercial and trading activities; and investment management. There is a pragmatic exception where costs need to be split between fundraising and other activities.

INPAG Section 33 on related party disclosures draws attention to the possibility that an NPO's financial position and/or its surplus or deficit have been affected by the existence of related parties. Disclosure is required of personnel compensation made to governing body members as well as key management personnel. INPAG Section 28 has been updated to include the disclosure of short term employee related benefits.

2 Presentation of expenses	References	Response
a) Do you agree that there is a rebuttable presumption that a by nature classification of expenses is used unless this doesn't provide the most relevant and reliable information to the users of the financial statements? If not, why not?	G24.43-G24.47, AG24.45-AG24.47	Yes.
b) Do you agree that the rationale for using a classification of expenses other than by nature should be disclosed? If not, why not?	G24.44	Yes.
c) Do you agree that where a functional or mixed presentation of expenses is used, a narrative description of the types of expenses incurred on each function line item is sufficient and that a requirement for these to be quantified is not necessary? If not, why not?	G24.46, AG24.48	Yes. However, the mixed presentation should be highly discouraged. An NPO should elect into by nature or by function and continue with that approach to foster comparability over years. A change in this classification should be treated as a restatement and require a three (3) column presentation.
d) Do you agree with the expense disclosure requirements? If not, what would you change and why?	G24.50-G24.57, G33.7-G33.11, G28.38	Yes.
e) Do you agree with the description of direct costs, shared costs and support costs and that these allow the full cost of an activity to be identified? If not, why not?	G24.48-G24.49	Yes.
f) Do you agree that commercial and trading activities that are for the purposes of fundraising and investment management costs associated with a	G24.64-G24.66	Yes.

2 Presentation of expenses	References	Response
fund whose purpose is to generate future returns are included as fundraising activities? If not, why not?		
g) Do you agree with the pragmatic exception that fundraising costs do not need to be split from other costs where the cost of doing so would exceed the information benefit to stakeholders? If not, what would you change and why?	G24.72	No. These need to be presented at least separately in the notes, and if possible the receipt of the fundraising monies should be disclosed. Frauds have been committed by some NPOs GBS or senior management team (SMT).
h) Do you agree that the costs for each of the three categories of fundraising activity should be separately disclosed and presented gross? If not, what should be disclosed and why?	G24.74	Yes.
i) Do you agree that grants or donations made in arm's-length transactions with governing body members and any services they receive on the same terms as other eligible service recipients need not be disclosed as a related party transaction? If not, why not?	G33.18 a)- G33.18 b)	No. Governing body members and SMT are a special powerful category of related parties that have all the powers to reward themselves in any manner they want by legitimatising it within policies and budgets! Therefore, all their transactions were made in arm's-length transactions should be disclosed as a check on their stewardship of the resources. In fact, such transactions should be disclose against each Governing body members and SMT member's names for proper identification and accountability.

Question 3: Supplementary information and INPAG Practice Guide 1 – Supplementary statements

INPAG Section 37 requires additional information to be disclosed when an NPO produces one or more supplementary statements using INPAG Practice Guide 1. NPOs may choose to prepare a single note to meet the requirements or disclose only the additional information. INPAG Practice Guide 1 – Supplementary Statements enables the presentation of key financial information about a specified activity, project or grant, in a prescribed statement format, which can be included as an Annex to the financial statements. The Practice Guide provides templates for different variants of reporting that includes comparison to budget, multiple grants, multiple time periods and different currencies.

3 INPAG Practice Guide 1	References	Response
a) Do you agree that the requirements of Section 37 do not have to be met unless Supplementary statements are prepared in accordance with INPAG Practice Guide 1 – Supplementary statements? If not, why not?	G37.1–G37.2	Yes.
b) Do you agree that a whole of NPO supplementary statement need not be presented if the additional information is already in the financial statements and/or notes? If not, why not?	G37.3, G37.10–G37.12	Yes.
c) Do you agree with the format of the Supplementary statement? If not, what would you change and why?	SS.5	Yes.
d) Do you agree with the options for the disclosure of capital and inventory related costs? If not, what would you change and why?	SS.18–SS.21	Yes.
e) Do you agree that the Supplementary statements are not part of the general purpose financial report but can be published as an annex? If not, why not?	SS.25–SS.26	No. Not all users will appreciate that such an annex is not part of the general-purpose financial report (GPFR). These should not be directly associated with the GPFR but may be included as Other Information which the audit will cover under ISA 720 and or related section of the ISA for LCE. Furthermore, including the Supplementary statements as an annex to the GPFR creates a direct association with the GPFR and thus the auditor must look into it which will translated into additional work and cost.

Question 4: Illustrative financial statements

INPAG Implementation Guidance Annex A includes Illustrative financial statements. The templates have been populated with data to cover the most common NPO transactions. The illustrative financial statements focus on new INPAG requirements.

4 Illustrative financial statements	References	Response
-------------------------------------	------------	----------

a) Do you agree that the illustrative financial statements cover the transactions that are prevalent for NPOs? If not, which prevalent transactions are missing and why do these need to be covered?	Illustrative financial statements	Yes.
--	-----------------------------------	-------------

Question 5: Equity

INPAG Section 2 provides the concepts and principles on which INPAG is based. Amendments are proposed to equity and net assets as a result of feedback. Net assets is a new element defined as the residual amount of an NPO's assets and liabilities available to achieve its objectives. The term equity claim is introduced to describe equity type instruments, which is a subset of net assets. INPAG Section 22 has the principles for classifying financial instruments as either liabilities or equity claims. As INPAG does not use the term equity, consequential amendments reflect the expected nature of NPO equity claims.

5 Equity	References	Response
a) Do you agree with the revised description of net assets and its inclusion as an element? If not, what would you change and why?	G2.73	Yes.
b) Do you agree with the use of the term equity claims in Sections 2 and 22 and that equity claims are a subset of net assets? If not, what would you change and why?	G2.74, AG2.6, AG2.7, Section 22	Yes.
c) Do you agree that the paragraphs relating to the sale of options, rights and warrants, extinguishing financial liabilities with equity claim instruments and treasury shares are removed from and that the paragraphs relating to capitalisation or bonus issues of shares and share splits and convertible debt or	G22.12–G22.15	Yes.

5 Equity	References	Response
similar compound financial instruments are retained? If not, why not?		

Question 6: Transition to INPAG

INPAG Section 38 describes the requirements for recognising and measuring assets and liabilities to create a Statement of Financial Position when INPAG is adopted for the first time. Accumulated funds that contain historic surpluses and deficits must be split between funds with restrictions and funds without restrictions. Compliance with just the financial statements can be asserted ahead of full compliance. The narrative reporting requirements must be completed within a two-year period to be able to continue to express compliance with INPAG.

6 Transition to INPAG	References	Response
a) Do you agree with the pragmatic approaches proposed for the first time adoption of INPAG? If not, what are the practical challenges that are likely to be experienced?	G38.11–G38.12	Yes.
b) Do you agree that compliance with INPAG can be expressed in relation to the financial statements only for a two-year transitional period? If not, why not?	G38.5–G38.6	Yes.

Question 7: Application of fair value

INPAG Section 12 describes how to measure assets and liabilities using fair value. The use of fair value to determine the deemed cost of donated assets is reflected in INPAG Section 16, for investments in land or buildings that are held to earn rentals or for their capital appreciation, INPAG Section 17, for property, plant and equipment, including capitalisation and depreciation and INPAG Section 18, for identifiable non-monetary assets that does not have a physical substance (e.g. licenses). The cost model in Section 17 applies to all tangible assets that are held for use in the activities of the NPO and are expected to be used during more than one period as well as to property held to deliver an NPO's missional objectives, e.g. social housing. There are no exceptions for assets that are funded by grants or donations.

7 Application of fair value	References	Responses
a) Is the Section 12 application guidance that sets out how the fair value hierarchy applies to NPO assets and liabilities and the illustrative examples of fair valuing donations in-kind useful? If not, how could it be improved?	AG12.1- AG12.11	Yes.
b) Do you agree with the additional guidance provided for donated: i) investment property (Section 16)? ii) property, plant and equipment (Section 17)? iii) intangible assets (Section 18)? If not, why not?	G16.7 G17.10 G18.14	Yes.

Question 8: Impairments

INPAG Section 27 requires that the carrying amount of an asset is reduced to the recoverable amount, where its carrying amount is higher than its recoverable amount. The new measurement base for inventories held for distribution at no or nominal cost has been added. The Section refers to an NPO's 'operating units' to encompass assets that are held for missional purposes rather than purely cash-generation.

8 Impairments	References	Responses
a) Do you agree that inventory held for distribution is measured for impairment using cost adjusted for any loss of service potential? If not, what would you change and why?	G27.2-G27.4	No. My opinion would be to retain at cost and only eliminate if the inventory cannot be used at all. An NPO objective is not to measure increase or maintaining in value but to provide a service to a beneficiary. An item may have lost value to one individual and yet very valuable to another beneficiary in the location.
b) Do you agree that the term operating unit better reflects the nature of an NPO's operations and with its proposed definition? If not, what alternative term would you use and why?	G27.8	Yes.
c) Do you agree that impairments to assets that form an operating unit can take	G27.15	Yes.

8 Impairments	References	Responses
account of other economic benefits and service potential? If not, what would you change and why?		

Question 9: Combinations of entities

INPAG Section 19 applies to the combining of entities, (including NPOs) that meet the definition of a business. The term business has been broadened to include the types of activities carried out by NPOs. It provides guidance on the recognition and measurement of the assets and liabilities acquired in a combination and includes a simplification where there is a combination of two NPOs that both have positive net assets.

9 Combinations of entities	References	Responses
a) Do you agree that the term 'business' can be applied by NPOs when taken alongside the amendments proposed, (including the expansion of examples of control)? If not, why not? What practical issues are experienced?	G19.4, G19.5, AG19.1-AG19.2.	Yes.
b) Do you agree with the proposed exemption for two NPOs that have net assets and that it should not apply where one NPO has net liabilities? If not, describe the practical and accounting issues that arise?	G19.24	No. I think the reassessment will benefit the acquiring NPO to confirm what is being acquired.

Question 10: Other topics in Exposure Draft 3

INPAG Section 14 and INPAG Section 15 provide guidance on accounting for associates and joint arrangements in consolidated and separate financial statements respectively. INPAG Section 20 covers the accounting for all leases and INPAG Section 34 provides guidance on three types of specialised activities: agriculture, extractive activities and service concessions. None of these Sections have been amended other than for terminology changes.

10 Other topics in ED3	References	Response
a) Do you agree that no further alignment changes are needed to:	Section 14 Section 15	Yes.
i) Section 14 Investment in associates?		

10 Other topics in ED3	References	Response
ii) Section 15 Joint arrangements? iii) Section 20 Leases? If not, why not?	Section 20	.
b) Is any of the guidance in Section 34 needed by NPOs? If yes, which elements of the section are needed and why?	Section 34	Yes. Agriculture- There are many NPOs that operate farms to generate incomes, and also to subsidy costs e.g. those in education and orphanages. Service concession arrangements- because most NPOs benefit from concessional services.

Question 11: IFRS for SMEs Addendum

INPAG Section 7 and INPAG Section 30 (published in ED1 and ED2 respectively) have been updated as a consequence of additional text proposed in the Addendum to the draft Third edition of the IFRS for SMEs Accounting Standard issued by the International Accounting Standards Board on 28 March 2024. There is additional text on supplier finance arrangements in Section 7 and lack of exchangeability in Section 30.

11 Addendum	References	Responses
a) Do you agree that the guidance for supplier finance arrangements is useful and relevant to NPOs? If not, what would you change and why?	G7.20A-G7.20B,	Yes.
b) Do you agree that the guidance on lack of exchangeability is useful and relevant to NPOs? If not, what would you change and why?	G30.5A, G30-31-32, AG30.26-AG30.43	Yes.

General Feedback

Please share any other comments that you wish to raise on Exposure Draft 3. When providing additional feedback please reference the paragraph numbers, where possible and provide a short explanation to support your comments.

Reference	Comment
Note 19: Supplementary information on page 212 of the implementation guide.	I see "Less: inventory expenses" and also "Add: inventory costs incurred" isn't this the same thing?!

Reference	Comment
<p>Note 23: Approval of financial statements</p> <p>These financial statements were approved by the Board and authorised for issue on 10 March 20X3. on page 212 of the implementation guide.</p> <p>These financial statements have been prepared to illustrate common INPAG requirements for the primary financial statements and accompanying notes. They do not illustrate all of the requirements of INPAG on page 191 of the implementation guide.</p>	<p>Let's have this tagged to the date of the governing body's signing of the balance sheet and eliminate the need of this note 23 requirements.</p> <p>I request that an unauthoritative illustrative version of the financial statements be prepared to illustrate all of the requirements of INPAG for a typical hypothetical NPO with assumed application of all sections in the INPAG. This will assist in guiding the preparers and also fasten uptake of the INPAG.</p>
