

# Unlocking Nonprofit Potential: Standardizing Financial Reporting with INPAS

**10M+**  
**ORGANIZATIONS**  
**Billions**  
**OF DOLLARS**

## THE CHALLENGES

10M+ organizations in the global development sector manage billions of dollars annually. Despite its size and scope, the sector is blocked by:

- An absence of standardized nonprofit financial reporting in more than 90% of countries
- Inconsistent practices across countries and organizations
- A lack of transparency and comparability

The result? Wasted time, money, and missed opportunities for global impact.

## THE SOLUTION

### International Non-Profit Accounting Standard (INPAS)

Humentum, a global nonprofit, and CIPFA, the Chartered Institute of Public Finance and Accountancy in the UK, are leading a globally representative coalition to develop guidance that will:

<p><b>Streamline Operations</b></p> <p>Eliminate redundant reporting formats</p>	<p><b>Enhance Credibility</b></p> <p>Improve financial report quality and assurance</p>	<p><b>Increase Funding</b></p> <p>Support fundraising and grant-making due diligence</p>	<p><b>Improve Transparency</b></p> <p>Clear reporting on unrestricted funds and support costs</p>
